Continued Examination Under 37 CFR 1.114

A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on June 15, 2007 has been entered.

Election/Restrictions

This application is in condition for allowance except for the presence of claims 1-11 and 27-50 directed to an invention non-elected without traverse. Accordingly, claims 1-11 and 27-50 are been cancelled.

Previously withdrawn claims 13-24 will now be rejoined in view of their dependency from now allowed independent claim 12.

Information Disclosure Statement

The Information Disclosure Statement filed June 15, 2007 contained two non-patent literature entries that had no date. These entries cannot be considered in view of the lack of a publication date. Copies of the initialed IDS are enclosed with this Office action with those two entries lined-through.

Drawings

The drawings were received on June 15, 2007. These drawings are accepted.

Examiner's Amendment

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows: non-elected claims 1-11 and 27-50 are canceled as indicated above.

Reasons for Allowance

The following is an examiner's statement of reasons for allowance: applicant has amended the claims to recite the step of applying the high frequency voltage to an electrically conductive fluid sufficient to vaporize the fluid and the tissue in contact with the fluid. This is deemed to distinguish over the Edwards et al reference which requires the active and coil (i.e. return) electrodes be inserted directly into the tissue mass. While Edwards et al does disclose the use of a conductive fluid, there would be no reasonable way to expect the vaporization of the fluid to cause the vaporization of tissue since the electrodes are in intimate contact with tissue and do not afford a space to provide the tissue as in applicant's claimed method. Edwards et al fail to suggest a method of using the device in a procedure where the electrodes are not inserted directly into tissue.

It is noted that the examiner had indicated on the Interview Summary of June 22, 2007 that the claims in the instant application were device claims. This statement was in error as all pending claims are method claims.

Application/Control Number: 10/068,533

Art Unit: 3739

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Michael Peffley whose telephone number is (571) 272-4770. The examiner can normally be reached on Mon-Fri from 7am-4pm.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Linda Dvorak can be reached on (571) 272-4764. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.

Information regarding the status of an application may be obtained from the

Patent Application Information Retrieval (PAIR) system. Status information for

published applications may be obtained from either Private PAIR or Public PAIR.

Status information for unpublished applications is available through Private PAIR only.

For more information about the PAIR system, see http://pair-direct.uspto.gov. Should

you have questions on access to the Private PAIR system, contact the Electronic

Business Center (EBC) at 866-217-9197 (toll-free). If you would like assistance from a

USPTO Customer Service Representative or access to the automated information

system, call 800-786-9199 (IN USA OR CANADA) or 571-272-1000.
